## DIRECTIONS TO OPEN

- The CR-Tube family of patented products provides a new child resistant CPSC (Consumer Product Safety Commission) ASTM (American Society for Testing & Materials) certified lid and locking button system.
- The family of products is certified to be used to package all medical grade materials.
- Each of the devices meet all ASTM certified guidelines.
- The invention ("locking system") provides a modern and sleek design unlike any option currently on the market, while maintaining child resistant requirements and certification.
- Each of the family of devices can be purchased in generic form (colors to include full body white or black) or with custom company information.
